## **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

### ***Allowable Subject Matter***

1. Claims 26-28, 31-33 and 38-50 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art is 5,105, 310 to Dickey, but Dickey fails to teach or suggest at least one high-index multilayer comprising a trilayer with alternatively one titanium oxide layer, one tin oxide layer and one titanium oxide layer. Dickey discloses that at least one of the high-index layers may be subdivided into two or more layers, but Dickey discloses that the layers should decrease in refractive index in the direction towards the substrate (column 9, lines 52-60).

Therefore, Dickey teaches away from the claimed high-index multilayer wherein the refractive index alternates between titanium oxide and tin oxide.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
